Fine-tune your comfort and save energy with a touch.

Temperatures change from season to season, but your indoor comfort needs can change as often as every hour. Perhaps you like your home a touch warmer in the mornings? Or, maybe you're away most of the day and would like to save on energy costs? Whatever your schedule and preferences, the ComfortSense® 5000 Series touchscreen thermostat makes it easy to program your HVAC system to fit your routine and lifestyle.

User-friendly features make programming a breeze.

A large, backlit touchscreen with easy-to-understand menu options guides you through setup and programming. With a simple touch of the menu screen, you have the flexibility to create a temperature schedule for every day of the week. Another touch saves your settings, so you relax in comfort and save money on your utility bills.

Indoor comfort, customized to your schedule.

The ComfortSense 5000 touchscreen thermostat gives you customizable programming options to enhance indoor comfort as well as heating and cooling efficiency. Quickly and easily program different temperature settings for every day of the week, with up to four time periods per day. Advanced technology within the thermostat responds to your choices and schedule, reducing temperature swings.

Reliability and quality for complete peace of mind.

Compatible with most HVAC systems, the ComfortSense 5000 Series thermostat offers optional battery power to ensure continuous operation during power outages. A 5-year limited warranty* provides additional assurance for worry-free comfort, season after season.

Lennox is proud of the fact that these products have earned the Good Housekeeping Seal.

A programmable thermostat can reduce heating costs by up to 35% and cooling costs by up to 25%.**

*Applies to residential applications only. See actual warranty certificate for details.
